

AFFIDAVIT FOR ARCHITECTS AND ENGINEERS

To be submitted after building is complete and prior to the issuance of a Certificate of Occupancy.

Wording must be submitted on architects or engineer's letterhead with approval seal.

This is to certify that the construction of all portions of the building known as (*please insert the location of the property: street address including section, block & lot numbers*) has been constructed in accordance with the filed plans and specifications as submitted to your office, and are in accordance with building and related code requirements of the State Code of New York and adhere to all recognized National Standards.

Name: _____

(Signature and Seal of P.E.)

I am familiar with the Federal, State, County and Village regulations controlling Environmental Impact. This is to certify that, to the best of my knowledge and belief, the proposed improvements will not in any way adversely impact upon the environment of the area of the proposed improvements in the Village of Brookville.
