A Message from Town Supervisor **John Venditto**

Initiated in 1986, the Town of Oyster Bay S.T.O.P. program provides Town residents with a safe disposal means for household substances which, if discarded improperly, pose a threat to our groundwater.

Since the program's inception, 15,307 55-gallon drums of hazardous chemicals have been collected and more than 110,042 households have participated.

The Town also has regularly scheduled electronic waste recycling collections and prescription and over-the-counter medications collections. These collections take place in conjunction with the S.T.O.P. program.

By properly disposing of unwanted and expired drugs and other household hazardous waste you will help protect our drinking water and bay waters for years to come.

Please keep this brochure handy for future reference.

Thank you for helping protect Oyster Bay's environment through responsible waste disposal.

Town Supervisor
JOHN VENDITTO

Town Hall South
977 Hicksville Road, Massapequa

SYOSSET - Sunday, Nov. 4
T.O.B. Dept. of Public Works Garage,
150 Miller Place
(North Service Rd. of LIE)

Commonly used household substances can contaminate your water supply

If you improperly dispose of products, such as waste oil, oven cleaner, paint thinner, spot remover or photo chemicals, you may be contaminating your own water supply.

Long Island depends upon an underground aquifer system for its water supply. Anything poured on the ground or put into cesspools, storm drains or recharge systems can work its way down into the aquifer or into our harbors and bays.

The S.T.O.P. Program provides a safe method of disposal for hazardous household wastes

Residents are urged to bring all hazardous household wastes to a S.T.O.P. collection. A schedule of collection dates and locations is included in this brochure.

Please remember to:

- Store wastes safely and securely until the next S.T.O.P. collection in your area.
- Take care not to spill wastes when transporting them to the collection site. Wear rubber gloves when handling wastes.

What you *may* bring to S.T.O.P. collections (partial listing)*

- Most pesticides & insecticides
- Waste motor oil & antifreeze
- Brake & transmission fluids
- Solvents
- Enamel, lead-based & latex paints
- Drain & oven cleaners
- Photo chemicals
- Spot removers
- Wood preservatives
- Automobile tires (with or without rims)
- Automobile batteries
- Small aerosol cans
- Rechargeable / button-type batteries
- Outdoor gas grill propane tanks
- Compact fluorescent bulbs
- Smoke detectors & thermostats

*Town reserves right to limit quantities

What you *may not* bring to S.T.O.P. collections

- Explosives, fireworks
- Radioactive materials
- Infectious materials (medical waste)
- Unlabeled materials (unless identifiable by our contractor)

Dispose of Unwanted or Expired Prescription & Over-The-Counter Medications
Call 677-5811 For Information

You don't have to store used motor oil between S.T.O.P. collections

New York State Law requires all service stations that perform oil changes and major retailers to accept up to five gallons per person per day of waste oil at no charge. Also, residents may bring up to 1-1/2 gallons of used motor oil every 30 days to the Town of Oyster Bay waste oil collection sites listed below.

Old Bethpage

Old Bethpage Solid Waste Disposal Complex
Claremont Road
Weekdays from 7:00 a.m. to 2:30 p.m.

Glenwood Landing

Tappen Marina, Shore Road
During normal park hours

Oyster Bay

Theodore Roosevelt Memorial Park
During normal park hours
